PROFESSIONAL SUMMARY

Mobile Developer with over 5 years of experience engineering scalable digital products. Specialized in cross-platform mobile development using React Native (CLI) and Flutter. Proven expertise in optimizing mobile memory consumption, implementing complex global state management (Zustand, Redux), and handling the complete application lifecycle from backend API integration to seamless App Store and Google Play deployments. Highly focused on building robust, high-performance native UI/UX experiences under pressure.

TECHNICAL SKILLS

Mobile Development: React Native CLI, Flutter, Dart, iOS, Android, Reanimated
Mobile Services: Firebase, OneSignal, FCM, RevenueCat, App Store & Google Play Deployment
State & Data: Zustand, Redux, TanStack Query, REST APIs, GraphQL
Web & Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS
Backend & Tools: .NET/C#, SQL Server, Azure AD, Git, CI/CD

PROFESSIONAL EXPERIENCE

Mobile Developer — Fusion Pax

2026 – Present

Remote

- **Cross-Platform Development:** Built fluid and adaptable user interfaces for iOS and Android using the Flutter SDK and Dart, ensuring a native and consistent user experience.
- **API & Services Integration:** Consumed RESTful and GraphQL services, connecting to databases for real-time data synchronization and local device persistence.

FullStack Developer — Grupo Monge

2023 – Present

Managua, Nicaragua

- **Dynamic Integrations:** Developed dynamic landing pages integrated with WhatsApp API messaging flows to render personalized product recommendations.
- **UI Architecture:** Built interactive views using React and Blazor for customer service virtual assistants and internal recruitment filtering dashboards.
- **Regulatory Compliance:** Configured and standardized frontend components across multiple repositories, ensuring compliance with the SUGEf 10-07 regulation in notification flows.

Mobile Developer — LogaCode

2025 – June 2026

Remote

- **Mobile Performance Optimization:** Optimized mobile device memory consumption by implementing infinite scrolling with `FlatList` in React Native for Reels-style video feeds.
- **Complex State Management:** Implemented advanced state management using Redux and Zustand for session persistence and real-time sales transaction control.
- **Security & Architecture:** Designed and integrated secure authentication flows using Firebase, significantly improving the robustness of modular interfaces.

Frontend Developer — Freelance

2019 – Dec 2022

Remote

- **High-Conversion Web Development:** Designed and rapidly deployed responsive, SEO-optimized landing pages using React, Vite, and Tailwind CSS, prioritizing load speed and UX.
- **POS System Interfaces:** Built complex web applications for Point of Sale (POS) systems, tightly integrating the client with backend services in .NET and SQL Server.

EDUCATION

B.S. in Systems Engineering

Universidad Nacional de Ingeniería (UNI)

2017 – 2022

Managua, Nicaragua
