Email: at2899743@gmail.com
Phone: +505 88068133
LinkedIn: linkedin.com/in/edwintorrez

PROFESSIONAL SUMMARY

FullStack Developer with 5+ years of experience, building end-to-end solutions ranging from .NET microservices and React/Blazor interfaces to cross-platform mobile apps with Flutter and React Native. Skilled in taking products from initial architecture through full deployment whether to production web environments or the App Store and Google Play. Focused on solving complex challenges in performance, API integration, and state management, delivering robust, scalable interfaces.

TECHNICAL SKILLS

Mobile: Flutter, Dart, React Native CLI, iOS, Android, Mapbox GL, Geolocator, Reanimated
Backend: NestJS, Node.js, .NET/C#, Prisma ORM, PostgreSQL, Redis, WebSocket (Socket.io)
Frontend: React.js, Next.js, Angular, Blazor, TypeScript, Tailwind CSS, Vite
Cloud & DevOps: Railway, Cloudflare R2, Upstash Redis, Docker, CI/CD, Git
Real-time & Geo: WebSocket, GPS Tracking, Geofencing (Haversine), Mapbox Directions API
State & Data: Riverpod, Zustand, Redux, TanStack Query, GraphQL, SQL Server
Services: Firebase, FCM, OneSignal, RevenueCat, App Store, Google Play Console

PROFESSIONAL EXPERIENCE

Mobile Developer (Part-Time) — Fusion Pax

Jan 2026 – Present

Remote

- **Cross-Platform Development:** Built fluid interfaces for iOS and Android using Flutter and Dart, ensuring 100% native experiences.
- **Integration & Data:** Integrated APIs (REST/GraphQL) and synchronized databases in real-time, ensuring proper local data persistence.

FullStack Developer — Grupo Monge

Jan 2023 – Present

Managua, Nicaragua

- **Dynamic Integrations:** Developed landing pages connected to WhatsApp to render personalized product recommendations.
- **UI Architecture:** Built virtual assistants and interactive recruitment dashboards using React and Blazor.
- **Enterprise Architecture:** Designed and scaled backend services implementing structured design patterns, Clean Architecture, and Vertical Slice, significantly improving maintainability and functional isolation of the code.
- **Regulatory Compliance:** Standardized frontend components across multiple repositories, ensuring strict compliance with the SUGEf 10-07 regulation.

Mobile Developer — LogaCode

Jun 2025 – Jun 2026

Remote

- **Mobile Performance:** Optimized memory consumption in infinite lists by implementing `FlatList` in React Native, achieving high-performance video feeds.
- **State Management:** Implemented Redux and Zustand for session persistence and efficient real-time transaction management.
- **Security:** Designed and integrated robust, secure authentication flows using Firebase.

Frontend Developer — Freelance

Dec 2019 – Dec 2022

Remote

- **SEO Web Development:** Designed and developed high-conversion, fast-loading, and SEO-optimized landing pages using React Vite and Tailwind CSS.
- **POS Interfaces:** Developed Point of Sale (POS) systems with .NET and SQL Server, prioritizing straightforward retail billing mechanics and a state logic that appends subsequent orders to preserve unified customer accounts.
- **Web Scraping & Automation:** Designed and implemented structured data mass-extraction processes by deploying bots on the Apify platform.

EDUCATION & LANGUAGES

B.S. in Systems Engineering | Universidad Nacional de Ingeniería (UNI)

Mar 2017 – Nov 2022

Languages: Spanish (Native), English (B2)

Managua, Nicaragua
