ACERCA DE MÍ

Frontend Developer with 5+ years of experience developing scalable web and mobile applications, specializing in the React ecosystem (React.js, React Native) and state management (Zustand, Redux). Proven experience delivering high-performance components under pressure, focusing on modularity, UI/UX optimization, and agile adaptation to new technologies.

EDUCATION

Universidad Nacional Ingenieria

Ingenieria Sistemas
2017 - 2022

STACK

- React.js, React Native, Next.js, Angular
- .NET / C#, SQL Server
- Redux, Zustand
- Firebase, Azure AD
- Push notifications (OneSignal, FCM)
- Despliegue App Store / Google Play
- APIs REST y terceros (RevenueCat, Twilio, WhatsApp API)

SKILLS

- Technical leadership
- Multidisciplinary teamwork
- Clear communication with non-technical teams
- Rapid adaptation to new technologies

LANGUAGES

- Español (Nativo)
- Inglés (B2)

PORTFOLIOS

At the following link, you can view my portfolios and some of my work:

 [Mi portfolio](#)

FullStack Developer

Grupo Monge - 2023 - Present

- Developed dynamic landing pages integrated with WhatsApp messaging flows to render personalized product recommendations.
- Built interactive views using React and Blazor for customer service virtual assistants and internal recruitment filtering dashboards.
- Configured and standardized frontend components across multiple repositories, ensuring compliance with the SUGEf 10-07 regulation in notification flows.

Mobile Developer

Fusion Pax - 2026 - Present

- Cross-Platform Development with Flutter: Built fluid and adaptable user interfaces for iOS and Android using the Flutter SDK and Dart, ensuring a native and consistent user experience.
- API & Services Integration: Consumed RESTful/GraphQL services and connected to databases for real-time data synchronization and local device persistence.

Frontend Developer

Logacode - 2025 - 2026

- Optimized mobile device memory consumption by implementing infinite scrolling with FlatList in React Native for Reels-style video feeds.
- Implemented complex state management using Redux and Zustand for session persistence and real-time sales transaction control.
- Designed and integrated secure authentication flows using Firebase, improving the robustness of modular interfaces.

Frontend Devloper - Freelance

Ene 2019 - Dic 2022

- Designed and deployed responsive, SEO-optimized landing pages using React, Vite, and Tailwind CSS.
- Built complex interfaces for Point of Sale (POS) systems, tightly integrated with backend services.
- Delivered web solutions independently, prioritizing load speed and user experience in every project.
